
Ochlockonee River Basin Management Plan 2002

Georgia Department of Natural Resources
Environmental Protection Division

Georgia River Basin Management Planning Vision, Mission, and Goals

What is the VISION for the Georgia RBMP Approach?

Clean water to drink, clean water for aquatic life, and clean water for recreation, in adequate amounts to support all these uses in all river basins in the state of Georgia.

What is the RBMP MISSION?

To develop and implement a river basin planning program to protect, enhance, and restore the waters of the State of Georgia, that will provide for effective monitoring, allocation, use, regulation, and management of water resources.

[Established January 1994 by a joint basin advisory committee workgroup.]

What are the GOALS to Guide RBMP?

- 1) To meet or exceed local, state, and federal laws, rules, and regulations. And be consistent with other applicable plans.
- 2) To identify existing and future water quality issues, emphasizing nonpoint sources of pollution.
- 3) To propose water quality improvement practices encouraging local involvement to reduce pollution, and monitor and protect water quality.
- 4) To involve all interested citizens and appropriate organizations in plan development and implementation.
- 5) To coordinate with other river plans and regional planning.
- 6) To facilitate local, state, and federal activities to monitor and protect water quality.
- 7) To identify existing and potential water availability problems and to coordinate development of alternatives.
- 8) To provide for education of the general public on matters involving the environment and ecological concerns specific to each river basin.
- 9) To provide for improving aquatic habitat and exploring the feasibility of re-establishing native species of fish.
- 10) To provide for restoring and protecting wildlife habitat.
- 11) To provide for recreational benefits.
- 12) To identify and protect flood prone areas within each river basin, and encourage local and state compliance with federal flood plain management guidelines.

[Established January 1994 by a joint basin advisory committee workgroup.]

Ochlockonee River Basin Management Plan

2002

Preface

This report was prepared by the Environmental Protection Division (EPD), Georgia Department Natural Resources (EPD), as required by O.C.G.A. 12-5-520 and as a public information document. It represents a synoptic extraction of the EPD files and, in certain cases, information has been presented in summary form from those files. The reader is therefore advised to use this condensed information with the knowledge that it is a summary document and more detailed information is available in the EPD files.

Comments or questions related to the content of this report are invited and should be addressed to:

Atlanta, Georgia 30334

Contents

<i>List of Acronyms and Abbreviations</i>	AA-1
<i>Executive Summary.....</i>	ES-1
Section 1	
<i>Introduction</i>	1-1
What Is the Purpose of This Plan?.....	1-1
What's Inside?.....	1-2
How Do I Use This Plan?	1-4
What Is the Schedule of Activities for the Ochlockonee River Basin?.....	1-5
How Do Stakeholders Get Involved in the Basin Planning Process?	1-6
What's Next?.....	1-8
Section 2	
<i>River Basin Characteristics.....</i>	2-1
2.1 River Basin Description.....	2-1
2.1.1 River Basin Boundaries	2-1
2.1.2 Climate	2-3
2.1.3 Physiography, Geology, Soils, and Hydrogeology	2-3
2.1.4 Surface Water Resources	2-7
2.1.5 Ground Water Resources	2-7
2.1.6 Biological Resources	2-13
2.2 Population and Land Use.....	2-14
2.2.1 Population.....	2-14
2.2.2 Employment.....	2-14
2.2.3 Land Cover and Use	2-14
2.3 Local Governments and Planning Authorities	2-30
2.3.1 Counties and Municipalities	2-30
2.3.2 Regional Development Centers	2-31

2.4 Water Use Classifications	2-32
2.4.1 Georgia's Water Use Classification System.....	2-32
2.4.2 Water Use Classifications for the Ochlockonee River Basin	2-33
References	2-33

Section 3

<i>Water Quantity</i>	3-1
-----------------------------	-----

3.1 Drinking Water Supply.....	3-1
3.1.1 Drinking Water Supplies in the Ochlockonee River Basin	3-1
3.1.2 Drinking Water Demands	3-2
3.1.3 Drinking Water Permitting	3-2
3.2 Surface Water Quantity	3-3
3.2.1 Surface Water Supply Sources.....	3-3
3.2.2 Surface Water Supply Demands and Uses.....	3-3
3.2.3 Surface Water Withdrawal Permitting	3-6
3.2.4 Flooding and Floodplain Management	3-7
3.3 Ground Water Quantity	3-8
3.3.1 Ground Water Sources.....	3-8
3.3.2 Ground Water Supply Demands	3-8
3.3.3 Ground Water Supply Permitting	3-8
References	3-9

Section 4

<i>Water Quality: Environmental Stressors</i>	4-1
---	-----

4.1 Sources and Types of Environmental Stressors	4-1
4.1.1 Point Sources and Non-discharging Waste Disposal Facilities.....	4-1
4.1.2 Nonpoint Sources	4-14
4.1.3 Flow and Temperature Modification	4-22
4.1.4 Physical Habitat Alteration	4-22
4.2 Summary of Stressors Affecting Water Quality.....	4-22
4.2.1 Nutrients	4-23
4.2.2 Oxygen Depletion.....	4-23
4.2.3 Metals	4-24
4.2.4 Fecal Coliform Bacteria.....	4-24
4.2.5 Synthetic Organic Chemicals.....	4-26
4.2.6 Stressors from Flow Modification	4-26
4.2.7 Sediment.....	4-26
4.2.8 Habitat Degradation and Loss.....	4-27
References	4-27

Section 5

<i>Assessments of Water Quantity and Quality</i>	5-1
--	-----

5.1 Assessment of Water Quantity.....	5-1
5.1.1 Municipal and Industrial Water Uses.....	5-1
5.1.2 Recreation.....	5-2

5.1.3	Hydropower	5-2
5.1.4	Navigation	5-2
5.1.5	Waste Assimilation Capacity	5-2
5.1.6	Assessment of Ground Water	5-2
5.2	Assessment of Water Quality	5-2
5.2.1	Water Quality Standards	5-3
5.2.2	Surface Water Quality Monitoring.....	5-4
5.2.3	Data Analysis.....	5-8
5.2.4	Assessment of Water Quality and Use Support	5-10
	References	5-16
 Section 6		
	<i>Concerns and Priority Issues</i>	6-1
6.1	Identified Basin Planning and Management Concerns	6-1
6.1.1	Problem Statements	6-2
6.2	Priorities for Water Quality Concerns.....	6-5
6.2.1	Short-Term Water Quality Action Priorities for EPD	6-5
6.2.2	General Long-Term Priorities for Water Quality Concerns	6-7
6.3	Priorities for Water Quantity Concerns.....	6-7
6.3.1	Priorities for Competing Demands.....	6-8
 Section 7		
	<i>Implementation Strategies</i>	7-1
7.1	“Big Picture” Overview for the Ochlockonee River Basin	7-1
7.1.1	Water Quality Overview	7-2
7.1.2	Water Quantity Overview	7-5
7.2	General Basinwide Management Strategies.....	7-5
7.2.1	General Surface Water Protection Strategies	7-5
7.2.2	Management of Permitted Point Sources	7-8
7.2.3	Nonpoint Source Management	7-11
7.2.4	Floodplain Management	7-15
7.2.5	Wetland Management Strategies	7-16
7.2.6	Stakeholder Involvement/Stewardship Strategies	7-17
7.2.7	Ground Water Protection Strategies.....	7-20
7.3	Targeted Management Strategies.....	7-21
7.3.1	Low Dissolved Oxygen.....	7-21
7.3.2	Fecal Coliform Bacteria.....	7-23
7.3.3	Fish Consumption Guidelines.....	7-27
7.3.4	Erosion and Sedimentation	7-28
7.3.5	Drought Conditions	7-35
7.3.6	Widespread Flooding.....	7-36

Section 8

<i>Future Issues and Challenges.....</i>	8-1
8.1 Where Do We Go From Here?	8-1
8.2 Working to Strengthen Planning and Implementation Capabilities	8-2
8.3 Addressing the Impacts from Continued Population Growth and Land Development.....	8-4
8.4 The Next Iteration of the Basin Cycle.....	8-4
8.5 Priorities for Additional Data Collection	8-4

<i>Appendix A: River Basin Planning Act.....</i>	A-1
--	-----

<i>Appendix B: Georgia Instream Water Quality Standards for All Waters: Toxic Substances</i>	B-1
--	-----

<i>Appendix C: Point Source Control Efforts.....</i>	C-1
--	-----

<i>Appendix D: NPDES Permits for Discharges in the Ochlockonee River Basin.....</i>	D-1
---	-----

<i>Appendix E: Support of Designated Uses for Rivers, Streams, and Lakes in the Ochlockonee River Basin, 1998-1999.....</i>	E-1
---	-----
